Finest Executive Protection
225-10-112th Road
Queen Village, NY 11429

Dear members of the Finest Executive Protection,

In the face of a frightening pandemic and mounting uncertainty, the staff at Woodhull / NYC Health + Hospitals continues to show remarkable courage. This week alone, our doctors, nurses, managers, administrators and support staff have been working around the clock to triage ED patients, care for the severely ill, set up new testing centers, and manage our own anxiety and fears. As of yesterday, we are proud to say that because of the hard work and dedication of NYC Health + Hospitals staff 4,706 Covid-19 patients have returned safely to their homes.

On behalf of the Department of Medicine we thank you for your generous gift of N95 masks for our hero healthcare providers. We greatly appreciate your donation and assure you that these masks will be put to good use as we continue to combat this war against Covid-19.

Sincerely,

Bibiana Soto
