

March 22, 2022

Hello

VIP Security Transports specializes in offering retired & active police officers as personal chauffeurs / security drivers (daily or permanently) to drive executives, public figures, and families primarily in the client's personal vehicle or our corporate vehicle.

Feel free to request a **VACCINATED & ROUTINELY COVID-19 TESTED** law enforcement officer to transport you & your executive staff throughout New York City & the tristate area. **Please take comfort in knowing that we routinely transport public figures, government officials or celebrities, and handle each accordingly.**

Though our drivers have a law enforcement background, we still conduct extensive background checks. Lastly, our drivers have signed non-disclosure agreements, and we're willing to sign our client's non-disclosure agreements.

We provide proof of our drivers' vaccinations & any recent covid-19 test results, upon bookings, and if clients want a driver to take a test less than 24 hours before the client's booking, we can arrange that. (May be an additional fee). Either way all of our driver's will be masked.

Lastly, please feel free to visit our clients page on VIP Security Transports, www.vipsecuritytransports.com to view just a few of notable people we've worked with.

Respectfully,

Aaron T. Jackson
President & (Ret. NYC Police Officer)

VIP Security Transports will always put your safety first!
